

# **QWD-19**

WR-19, 40~60GHz

Features: \* Broadband \* High Sensitivity Applications:

\* Telecom \* Instrumentation

\* Laboratory Test

\* Radar

#### **Electrical**

Frequency Range: 40~60GHz

> Sensitivity: 300mV/mW typ.

Flatness: ±1.8dB Polarity:

Negative

Input Power Without +20dBm max.

Damage:

Rise Time: 10nS Falling Time: 10nS

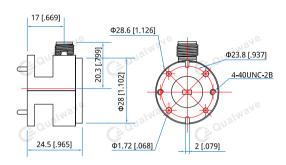

#### Mechanical

Input Connector: WR-19 (BI500) Output Connector: **SMA Female** 

#### **Environmental**

-20~+70°C Operating Temperature: Non-operating Temperature: -40~+85°C

## **Outline Drawings**

Unit: mm [in]

Tolerance: ±0.2mm [±0.008in]

### **How To Order**

**QWD-19** 

Customization is available upon request.
